RATE SCHEDULE 100

BUSINESS LICENSE TAX STATEMENT

Your annual business license tax statement ("business license") fee is based off the estimated gross revenue of your business for one (1) year. Locate your estimated gross revenue figure in the table below, and enter the corresponding amount in the TAX FEE box on the front page. If you underestimate your gross revenue, the City will bill you for the difference to the correct fee amount upon renewal.

La tarifa anual de declaración de impuestos de licencia comercial ("licencia comercial") se basa en los ingresos totales estimados de su negocio durante un (1) año. Ubique su cifra de ingresos totales estimados en la tabla a continuación e ingrese el monto correspondiente en el recuadro CUOTA FISCAL en la página principal. Si subestima su ingreso total, la Ciudad le facturará la diferencia al monto correcto de la tarifa al momento de la renovación.

DISABILITY ACCESS REQUIREMENTS AND RESOURCES

NOTICE TO APPLICANTS FOR BUSINESS LICENSE AND COMMERCIAL BUILDING PERMITS:

Under federal and state law, compliance with disability access laws is a serious and significant responsibility that applies to all California building owners and tenants with buildings open to the public. You may obtain information about your legal obligations and how to comply with disability access laws at the following agencies:

DEPARTMENT OF
GENERA SERVICES,
Division of the State
Architect, CASp Program

www.dgs.ca.gov/dsa
www.dgs.ca.gov/casp

DEPARTMENT OF REHABILITATION

CERTIFIED ACCESS SPECIALIST INSPECTION SERVICES

Compliance with state and federal construction-related accessibility standards ensures that public places are accessible and available to individuals with disabilities. Whether your business is moving into a newly constructed facility or you are planning an alteration to your current facility, by engaging the services of a Certified Access Specialist (CASp) early in this process, you will benefit from the advantages of compliance, including legal protections. (For additional information on these legal protections, refer to the Construction-Related Accessibility Standards Compliance Act (CRASCA, Civil Code 55.51- 55.545))

Although your new facility may have already been permitted and approved by the building department, it is important to obtain CASp inspection services after your move-in because unintended access barriers and violations can be created (For example, placing your furniture and equipment in areas required to be maintained clear of obstructions). For planned alterations, a CASp can provide plan review of your improvement plans and an access compliance evaluation of the public accommodation areas of your facility that may not be part of the alteration.

A CASp is a professional who has been certified by the State of California to have specialized knowledge regarding the applicability of accessibility standards. CASp inspection reports prepared according to CRASCA entitle business and facility owners to specific legal benefits, in the event that a construction-related accessibility claim is filed against them.

To find a CASp, visit: https://www.apps2.dgs.ca.gov/DSA/casp/casp_certified_list.aspx
